Following studio productions with Popa Chubby (2004), Status Quo frontman Francis Rossi (2007) and Cream lyricist Pete Brown (2009), Paul Camilleri has now completed his sixth album after many hours of jamming with his band. The most catchy riffs and enthralling performances found their way onto „One Step Closer“: passionate and intense blues & rock at its best.

Over the past few years, Paul Camilleri (vocals & guitars), Roland Sumi (bass) and Tom Beck (drums) have been touring all over Europe, thus gaining an excellent reputation as a spectacular power trio that enjoys exploring the realms of blues rock songs, playfully demonstrating their skills in improvisation. After collaborating with big names from the international music scene, the time had finally come to capture the band's own sound and record a new album: the result is a powerful and catchy album that is reminiscent of acts like Led Zeppelin, ZZ Top and Lenny Kravitz.

The spellbinding songs which were recorded live are the core of the new release: Camilleri sings about love and vigour as well as genuine experiences and things that play in his own imagination. The music on „One Step Closer“ is more rock- than blues-oriented. At times, Camilleri's meandering and elevating guitar solos give the songs a stylistic feel of the Seventies. Blues rock at its finest – perfectly delivered by the lively interaction of the three versatile musicians, Camilleri, Beck & Sumi. The trio adds its own tasteful and spicy blend of originality with a high recognition value. The most renowned Swiss recording engineer Oli Bösch and Masterdisk in New York were both responsible for the excellent sound quality.

Paul Camilleri, a British citizen with a Maltese name, was born in Lebanon and has been living in Switzerland for many years. His name stands for straightforward and energetic blues rock that bears his very own trademark: an unmistakable voice paired with a singing guitar.

„One Step Closer“ – the brand new album written by Paul Camilleri and his band, weaves riff-oriented blues rock and rock-oriented songs, displaying the musicians' sheer power and enthusiasm with many surprises up their sleeves. Once again, Camilleri releases an excellent album coined by his characteristic style. The record is set for release in autumn 2011. The band will then embark upon a tour in Germany in spring 2012.
